Experience

Allora Foundry LLC

Remote

Mobile Engineer (Contract)

Aug 2026 - Present

Lead engineer (~95% of commits) on **Left Right: Photo Cleaner**, taking it from first commit to App Store and Google Play submission in under six weeks — native Kotlin/Swift modules for perceptual-hash duplicate detection, RevenueCat subscriptions behind a custom paywall, AdMob, AppsFlyer, and Sentry, backed by 1,700+ tests.

Logistics & Merchant Platform (Client Engagement)

Remote

Full-Stack & Mobile Engineer (Contract)

Feb 2026 - Present

Own full-stack and mobile delivery for a live logistics and merchant platform — four web dashboards, three companion mobile apps, and the backend powering them.

- **Dashboards & Backend:** Built and maintain four Next.js dashboards (merchant POS, HR/ERP, super-admin, partner portal) and a Bun/ElysiaJS API with AWS S3, cron jobs, and Google Gemini AI, plus VPS deployments.
- **Mobile:** Lead delivery of three Expo/React Native apps (customer, driver, logistics) with OTA via EAS Update; shipped the customer app to Google Play via an automated release pipeline.

CLPPER

Remote

Mobile Developer (Freelance → Ongoing Retainer)

Mar 2026 - Present

Rebuilt CLPPER's customer and barber-facing mobile apps (Expo/React Native), turning a one-time freelance engagement into an ongoing retainer: shipped both to the App Store and Google Play with RevenueCat subscriptions (barber app), Stripe/Apple Pay/Google Pay checkout, and OTA via EAS Update.

Thywill Fountain of Hope for the Poor Initiative

Remote

Lead Fullstack Developer (Contract)

Sept 2025 - Dec 2025

Architected a digital platform integrating e-commerce, social networking, and gamification with a bespoke admin ecosystem and mobile-first frontend.

- **Custom CMS & No-Code Admin Architecture:** Built an admin dashboard with a "Live Preview" CMS so non-technical staff edit copy, media, and SEO in real time, with RBAC across tickets, posts, and users.
- **Commerce, Membership & Community:** Built a transactional system for physical goods and secure digital downloads with webhook-driven order updates and a tiered membership; engineered a moderated social forum with a granular approval queue for user-generated content.
